**Clarifications to the Queries raised by Bidders.**

Sl. No	Tender Document	Subject	Clause Description	Bidder’s Query	Reply/ Clarification
	Cl. No.				
<b>1</b>	Section No.1, Clause 31	Advance payment	No Advance payment is contemplated in this Tender.	Requested that advance payment be given against Bank Guarantee.	Tender condition shall prevail
<b>2</b>	Section No.1, Clause 13.1	Insurance	The Contractor shall provide, in the joint names of the Employer and the Contractor, insurance cover from the Start Date to the end of the Defects Liability Period, in the amounts and deductibles stated in the Contract Data for the following events which are due to the Contractor’s risks: a) loss of or damage to the Works, Plant and Materials;	Loss of or damage to the works – the insurance will cover only the repairs/ retrofitting portion and not the entire northern breakwater structure.	Not acceptable, Tender condition alone shall prevail

			<p>b) loss of or damage to Equipment;</p> <p>c) loss of or damage of property (except the Works, Plant, Materials and Equipment) in connection with the Contract; and</p> <p>d) personal injury or death.</p> <p>All the floating crafts including boats,tugs, etc., deployed in the operation should be insured under Marine Hull Policy and covered for various Port risks including pollution and wreck removal.</p>		
<b>3</b>	Section-2, Clause 41.2.4	Payment for Stones	<p>The measurement of stone shall be based on actual weighment for each category of stone, and payment will be made based on lorry weighment. However, the theoretical quantity of each category of stones calculated after deducting voids from the Engineer-in charge nominee approved profile shall be compared to avoid ambiguity. The contractor will submit the list of quarries proposed to</p>	<p>We request that the rocks procured at site may be paid an advance amount of 75 % as this will help in cash flows.</p>	<p>Not acceptable. Tender condition alone shall prevail.</p>

			procure stones. However, the density of the stones from those quarries shall be in the range of 2.60 to 2.80 gms/Cubic Centimeter. The full payment for all the categories of stones will be made only after they are quarried, transported, handled and placed or dumped in position. No payment shall made for supply and stacking of stones at site.		
<b>4</b>	Section-5, Clause 13.7	Underwater inspection with Echoscope	<p>This survey with shall be performed on the area of the breakwater already built</p> <p>The objective is to obtain a clear picture of the underwater integrity and interlocking of the Tetrapod units and of the state of the berm, in complement to the survey realized before tender.</p> <p>For this objective, the suitable equipment to be used is a Coda Echoscope™ 3D sonar (or equivalent, after demonstration of its capabilities). Over the Cross- Section A-A, B-B and C-</p>	Our experience working with echoscope in turbid water / wave impact conditions is not very effective. Can other suitable solutions be provided.	In general, the methodology suggested is workable and easy to execute. However, if any alternative methodology suggested by the contractor at the time of execution, the same shall be considered at the sole discretion of the Engineer in-charge, subject to its suitability. Any decision in this regard by the Engineer in-charge shall be final and finding on the contractor and no claim shall be entertained for the reasons whatsoever.

			<p>C of Northern breakwater and on eachside, the Echoscope survey will record the current status of the Tetrapod armour, the basement and the toe. This survey is extended from the high water level to the armour toe and the under basement + 5 m.</p> <p>This survey is to take place at high tide in order to obtain the maximum coverage of the armouring including the toe. The survey should obtain an accurate picture of the Tetrapod armouring including the toe. The accuracy and the number of recorded points are left to the Contractor's appreciation in order to provide a clear picture. The following image represents a minimum quality of output that Contractor shall produce.</p>		
<b>5</b>	-	General	-	Underwater videography of the damaged portions of the breakwater available with KPL. If yes, can your provide	In the recent past, no such videography was taken. However, the bidders will be permitted to carry out the underwater

				the same to the contractor.	videography at their cost for their better understanding.
<b>6</b>	-	General	-	What are the various categories of stone available within the port premises and total quantity of rock?	Please refer the notes given under relevant schedules.
